Mr. Speaker then said:—

*May it please Your Honour:*

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1960, and the 31st day of March, 1961".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly of Ontario:*

In proroguing this first Session of the 26th Parliament of Ontario I wish to commend you for the diligent and thoughtful attention you have given to the affairs of this Province. With the growth and development of our Province and with the expanding services that governments are now called upon to provide, the burden of work of this Legislature has continued to mount. This has been one of the longest Sessions in

the history of the Province. During its course you will have considered more than 200 bills, made searching enquiries into myriad problems relating to the public weal and studied and approved a budgetary program involving an expenditure of \$896 million—all of which has been designed to develop our economy and promote the well-being of our people.

The program you have approved reflects the paramount importance that the Government attaches to education. The extraordinary increase in the number of children has necessitated the adoption of extraordinary measures. In the fiscal year 1960-61, the Province's expenditure on education will total \$230 million, an increase of \$26 million over last year's appropriation. To ensure equity and high standards of education in all parts of the Province, a further major step has been taken in introducing the new system of school grants based on equalized assessment. Action was taken on many facets of this vital subject to keep our Province well in the lead. You gave approval to the creation of Laurentian University of Sudbury and its affiliated colleges. For the first time the Legislature authorized a grant for York University, bringing the provincially-assisted family of universities to 11. Indeed, the over-all program that you have approved for education is unprecedented in the Province's history. A system of education has been developed predicated upon the achievement of high standards and equality of opportunity for all.

To facilitate the extension of the orderly marketing of farm products, protect the farmer and ensure a fair bargaining position to both sellers and buyers you have amended The Farm Products Marketing Act. This will allow the Farm Products Marketing Board to carry out the powers and functions of a marketing agency where none previously existed. The Board may vest in a local board certain powers of regulation with respect to any regulated product and it may also provide that such products be marketed through the local board. The purposes of the amendments are to protect the farmer and to assist him to establish sound, efficient and enduring methods for the marketing of farm products.

The Agricultural Marketing Enquiry Committee of Ontario, which is investigating the production, handling, transporting, storing and marketing of agricultural products, submitted an interim report, and over the next year will continue its studies into the various phases of Ontario agriculture with particular emphasis on marketing. It is planned to establish in Ontario an Agricultural Research Foundation to co-ordinate research in the Province and keep Ontario agriculture in the forefront of developments that are occurring both at home and abroad. A re-organization of the Department of Agriculture's administrative structure has been carried out in the light of changing conditions and the new emphasis on marketing. A Select Committee of the House has been appointed to examine into crop insurance. Further extensions have been made to the system of rural electric power distribution and many other measures have been adopted to assist in rural betterment.

You have made an important contribution in the field of labour relations. The substantial changes which have been made to The Ontario Labour Relations Act came only after careful consideration by honourable members both in the Select Committee on Labour Relations and in the House. As a result of these changes, I am confident that the rights of individual workers and employers will be more completely safeguarded and that excessive delays in conciliation and arbitration procedures will be avoided.

You have made provision for the introduction of a system of mediation as an alternative to conciliation. You have furthered the protection of individual workers against discriminatory actions by both employers and unions. All these amendments have been designed to reduce costly strikes and lock-outs, protect individual rights and promote labour-management harmony.

You have also shown concern for the rights of the individual in your consideration of The Employment Agencies Act. This legislation was introduced to license and regulate private employment agencies, thereby protecting from abuse those individuals using their services. You have amended The Workmen's Compensation Act to allow for the payment of increased compensation to dependants where death occurred before April, 1953.

To protect the health and lives of workers, a thorough review of all statutes and regulations relating to hazardous working conditions is to be undertaken by a Royal Commission.

You have established the Ontario Energy Board which will retain the quasi-judicial functions of the former Ontario Fuel Board. Such previous functions of the Fuel Board as inspection of transmission and distribution lines, the appointment and duties of inspectors, safety codes, emergency measures and drilling and production procedures have been transferred to the Department of Energy Resources.

Ontario's energy requirements and ways and means of meeting them are being thoroughly examined. Research into the utilization of uranium for nuclear electric power is being advanced as quickly as possible.

The Technical Committee on Portable Pensions, set up at this Session to study ways and means of easing the problem of dependency in old age and removing one of the inhibitions to the employment of middle-age and older workers, submitted to the Members of the House a digest of relevant material and numerous articles and documents which it had assembled. During the coming months, the Committee will continue its research and its findings will be available to the House next Session.

Considerable progress has been made in the improvements and expansion of Provincial Parks for the enjoyment of our own people and visitors from other jurisdictions. An Act to provide assistance to municipalities enabling them to establish certain types of parks and other measures augur well for another year of great progress.

In line with its policy of protecting and enhancing the water resources of this Province, the Government recently approved the payment, on the condition of the Federal Government doing likewise, of 37½ per cent of the costs of the \$34 million flood control and water conservation program of the Metropolitan Toronto and Region Conservation Authority. Other conservation policies and measures adopted will have wide effect. In fact, the total appropriation for all conservation purposes voted at this Session, including funds for the Ontario Water Resources Commission, was the largest in the history of the Province.

The demands of our rapidly growing population and industry have placed increasing burdens on the municipalities, as well as on the Province. To help meet these obligations you have again approved an increase in grants to the municipalities. Last year our assistance to municipalities exceeded \$300 million for the first time. In this fiscal year our grants to municipalities, school boards and other local agencies will total nearly \$343 million, quadruple that of just ten years ago. You have again approved grants, made for the first time last year, to municipalities with respect to their payments for the statutory hospital care of indigent patients.

Far-reaching changes in the administrative organization of the Department of Municipal Affairs have been carried out. Some functions of the Ontario Municipal Board together with the Community Planning Branch of the Department of Planning and Development and the Ontario Water Resources Commission have been transferred to this Department, thereby bringing under the aegis of the Department of Municipal Affairs the several major phases of activity relating to municipalities.

Social welfare in the Province has been reinforced by an extension of payments to needy persons while at the same time steps have been taken to avoid abuses. A special geriatrics program involving treatment and research into conditions relating to elderly persons have been inaugurated. Continuing studies are being made to better the conditions for less privileged persons. New policies are being evolved to improve employment opportunities for Indians.

As part of the Province's new approach to the care and treatment of mentally ill patients, several enactments and improvements have been introduced. The Ontario Mental Hospitals Act has been amended to ameliorate the strict legal requirements that previously governed the admission, probation and discharge of mental patients, particularly those being admitted for a short period for observation. At this Session, legislation has been introduced to provide for the establishment and operation of hospitals for the care and treatment of mentally disturbed children and to amend The Mental Hospitals Act and The Psychiatric Hospitals Act to protect the financial interests of patients while they are under treatment.

You have approved the continuation of the program of modernizing, fireproofing and expanding Ontario's mental hospitals. This year additional accommodation will become available at the Cedar Springs Hospital devoted entirely to the care of retarded children. New, infirmary-type hospitals are also being proceeded with at Goderich, Palmerston and Owen Sound in order to relieve other institutions which have been caring for children of patients who have grown elderly. Measures have been taken to increase the number of nurses and nursing assistants.

To assist the public and chronic hospitals in the Province, a special grant will be paid to all recognized hospitals for capital and debt retirement purposes.

A physical fitness program has been inaugurated and you have passed legislation to expedite the functioning of eye-banks, and as well as many other measures to strengthen our health services.

The Government has again undertaken a huge construction program, providing employment for many thousands of workers. The capital and repair expenditures of the Province, the municipalities and their commissions will total approximately \$1.0 billion, affording jobs for more than 300,000 workers, including 30,000 in the Civil Service. Again this year the Province has been carrying out a winter works incentive program. Ontario has a lower percentage of its labour force unemployed than other regions.

In your deliberations, you have shown an awareness of the increasing responsibilities and problems caused by the operation of nearly two million motor vehicles and the several million additional tourist vehicles on our highways and roads. You have appropriated the sum of \$251.5 million for the expansion, improvement and maintenance of the vast network of public thoroughfares in this Province. Under this year's highway program, you have made provision for the commencement of construction on the new high-level bridge over the Welland Canal near St. Catharines on the Queen Elizabeth Way, the St. Mary's River Bridge and for a start on the Chedoke Expressway in Hamilton. Work on Highway 401, which will be completed in 1962, will be continued, and one section of it west from Yonge Street on the Toronto By-pass will be widened to six lanes. Substantial work will be done on the new highway connecting Fort Frances to Atikokan. Over \$66 million has been allotted to the municipalities for their own program of road construction and maintenance.

You have made a valuable contribution to traffic safety in this Province by making a number of revisions to The Highway Traffic Act. The new points system which was initiated earlier has shown gratifying results after its first full year of operation.

To ensure that we have well-trained police officers throughout the Province who have the respect and admiration of our people, you have directed the establishment of a Police College for the training of law officers. You have also passed permissive legislation which allows smaller villages and townships with a population of under 5,000 to form boards of police commissioners.

Funds were voted for the carrying out of various land assembly programs, rental housing projects and municipal redevelopment.

The Government made its submission to the Royal Commission on Transportation.

The Province's research program to minimize alcoholism is being accelerated. This is a very complex subject, but every effort will be made to combat alcoholism and its effects. Additional funds have been provided for this purpose.

Various improvements have been made in our Reform Institutions.

The plans announced at the beginning of the Session to promote the betterment of world mankind are being implemented. Refugees suffering from tuberculosis are being accepted in increased numbers. The exchange system involving students in other countries is being developed.

Six Select Committees of the House have been established. They are as follows:

1. A Committee to examine into the matter of crop insurance.
2. A Committee to inquire into the cost of drugs now used in the public hospitals, the Ontario Hospitals for the mentally ill and other institutions operated by the Province.
3. A Committee on Motor Vehicle Insurance and Compensation to the Victims of Motor Vehicle Accidents.
4. A Committee to examine into and study the administrative and executive problems of the Government of Ontario in all divisions of the Provincial service and to examine into the relationship of boards and commissions to the Government and the Legislature.
5. A Committee to inquire into and review the Acts of the Legislature that deal with the expropriation of land by public authorities and the methods of determining the compensation in such cases.
6. A Committee to study the question of the times of the sitting of the House and other related matters.

You have made a number of improvements to the administration of justice in the Province by amending The Judicature Act, The County Judges Act, The Parole Act, The Summary Convictions Act, The Surrogate Courts Act, The Division Courts Act, The Negligence Act, The Juvenile and Family Courts Act, The Evidence Act, The Crown Witnesses Act, The County Courts Act, The Crown Attorneys Act and The Administration of Justice Expenses Act. Likewise you have simplified the administration of reform institutions by amending The Training Schools Act, The Industrial Farms Act and The Reformatories Act.

You have passed The Mortgage Brokers Act and amended The Unconscionable Transactions Relief Act in order to protect persons borrowing money on the security of real estate.

You have deliberated on and approved a large number of amendments to bring up to date legal requirements respecting titles, leases, mortgages, estates,

corporations and the like. The Corporations Tax Act has been amended in order to bring it into closer relationship with the corresponding provisions of the Federal Income Tax Act.

The Government is making its preparations to attend the Federal-Provincial Conference on Fiscal Arrangements from July 25th to July 27th. The events and developments of the past Session have left no doubt that both the Province and the municipalities require additional revenues or sources of revenue if they are to play their full part in maintaining a strong and progressive economy. There are several matters that require consideration and decision. One is a most just and equitable division of the direct tax fields, to which we have equal rights with the Federal Government. Another is the respective rights of the Federal Government and the provinces concerning the taxation of Crown agencies and corporations. A third is the consolidation of conditional grants and a fourth is the settlement of the matter of natural resource taxation particularly as it relates to our forest industries. I give this assurance to the Honourable Members that the Government will press for a just and equitable settlement of these and other outstanding problems.

The early months of 1960 suggest a year of progress. Trends in production, personal incomes, salaries and wages and consumer purchases all point upward. The policies and programs which you have considered at this Session have been designed to support and encourage expansion, the creation of new employment opportunities and better living for our people.

I pray that Divine Providence will guide you and bless you.

The Provincial Secretary then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

On Monday, March 28th, 1960, the Honourable the Administrator of the Province entered the Chamber of the Legislative Assembly and, being seated upon the Throne,
